

AWS Solutions Architect

Certification Program

Design. Deploy. Scale.

3 Months

Duration

7+ Projects

Hands-On

22+ AWS Tools

Covered

SAA-C03 Aligned

Live Mentorship

Career Support

WHO IS THIS PROGRAM FOR?

Built for professionals ready to move beyond theory

Software Developers

Expand from code to cloud architecture

System Administrators

Modernize infrastructure skills to cloud

IT Support Engineers

Step up into cloud operations roles

DevOps Learners

Add AWS depth to your CI/CD toolkit

Cloud Enthusiasts

Turn passion into professional expertise

Career Transitioners

Start fresh in the world of cloud tech

No prior AWS experience required — start from the ground up.

THREE PHASES.

ONE COMPLETE JOURNEY.

01

FOUNDATIONS

4 Weeks

- ▶ Cloud Fundamentals
- ▶ IAM & Security
- ▶ EC2, EBS & S3
- ▶ Shared Responsibility Model

Deploy your first cloud workload

02

CORE ARCHITECTURE

4 Weeks

- ▶ VPC & Networking
- ▶ Load Balancers + Auto Scaling
- ▶ RDS & DynamoDB
- ▶ Route 53 & CloudFront

Build production-ready architectures

03

PRODUCTION SYSTEMS

4 Weeks

- ▶ Lambda & Serverless
- ▶ CloudWatch & Security
- ▶ Terraform & CloudFormation
- ▶ Cost Optimisation & DR

Deploy enterprise-grade cloud systems

PHASE 1

AWS Foundations

4 Weeks

 Deploy your first cloud workload

Zyvotrix

Cloud Computing Fundamentals

Cloud models, benefits, regions, availability zones, and AWS global infrastructure.

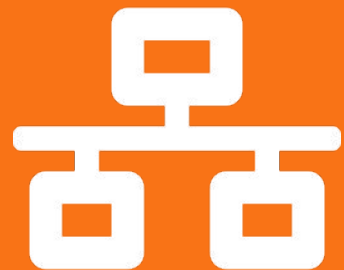

IAM & Security

Identity management, policies, MFA, roles, and the Shared Responsibility Model.

Compute & Storage

EC2 instances, EBS volumes, S3 buckets, object storage, and snapshots.

PHASE 2

Core Architecture

4 Weeks

Build production-ready architectures

Zyvotrix

VPC & Networking

Isolated VPC environments with public/private subnets, security groups, and NACLs.

High Availability

Load balancers, Auto Scaling groups, and multi-AZ deployments for resilient systems.

Databases & CDN

RDS, DynamoDB, CloudFront, and Route 53 for global, scalable data and delivery.

PHASE 3

Production Systems

4 Weeks

Deploy enterprise-grade cloud systems

Serverless Computing

Lambda, API Gateway, SNS, SQS, and EventBridge for event-driven architectures.

Observability & Security

CloudWatch, CloudTrail, and Well-Architected Framework for operational excellence.

Infrastructure as Code

CloudFormation and Terraform to provision and manage complete AWS environments.

HANDS-ON PROJECTS

7 Industry Projects + Capstone — Build a portfolio that proves your skills

01 Secure AWS Landing Zone

IAM, MFA, governance & billing

02 Static Website Hosting

S3, CloudFront, Route 53, HTTPS

03 Serverless Booking API

Lambda, API Gateway, DynamoDB

04 Multi-Tier Application

EC2, RDS, VPC, Load Balancers

05 HA E-Commerce Platform

Auto Scaling, Multi-AZ, Route 53

06 Cloud Operations Centre

CloudWatch, CloudTrail, Dashboards

07 Terraform AWS Infra

Full IaC environment provisioning

CAPSTONE

Netflix-Style OTT Platform

VPC · Auto Scaling · CDN
RDS · S3 · Lambda
Terraform · CloudWatch
DR Strategy & Security

Every project delivers: Architecture Diagrams · Live Deployment · Security Review · Cost Plan · DR Strategy

22+ AWS & DEVOPS TOOLS COVERED

Taught through live demos and project work — not slide decks

Architecture & Networking

Hands-on project work with real AWS environment

Compute, Storage & DB

Hands-on project work with real AWS environment

High Availability & DR

Hands-on project work with real AWS environment

Cost Optimisation

Hands-on project work with real AWS environment

Infrastructure as Code

Hands-on project work with real AWS environment

Serverless & Cloud Ops

Hands-on project work with real AWS environment

All content aligned to the AWS Certified Solutions Architect – Associate (SAA-C03) exam

CAREER PATHS & CERTIFICATION

AWS Solutions Architect

Cloud Engineer

AWS Engineer

Cloud Consultant

Infrastructure Engineer

Cloud Administrator

DevOps Engineer

AWS Certified Solutions Architect – Associate (SAA-C03)

Certification prep built into every module · Dedicated mock exams · Interview preparation & career support included

WHY ZYVOTRIX?

Built for Builders, Not Viewers

Live Mentor-Led Training

Expert guidance and direct support throughout your entire learning journey.

Portfolio Development

7 real projects + capstone to showcase to employers and in interviews.

Certification & Interview Prep

SAA-C03 aligned curriculum with dedicated career placement support.

Community Support

Learn alongside a vibrant community of cloud builders and practitioners.

Start Your Cloud Journey Today.

3 Months · 7+ Real Projects · SAA-C03 Certified · Career Ready
