

ZYVOTRIX

Agentic AI Certification Program

Build AI Agents That Think, Plan, and Act.

Built for Builders, Not Viewers.

100+ Hours · 21 Tools

3 Months

Duration

12 Modules

Curriculum

7+ Projects

Portfolio Builds

THE SHIFT

The Future of AI is Agentic.

Chatbots answer questions. AI agents solve problems. The industry is shifting — and the engineers who build agents will define what comes next.

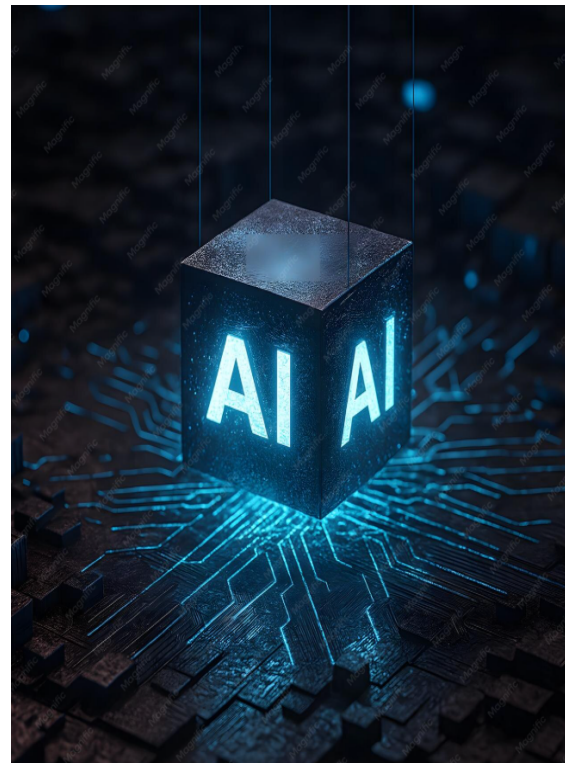

Traditional AI

- ✗ Answers Questions
- ✗ Static Responses
- ✗ Single Interaction
- ✗ No Planning

Agentic AI

- ✓ Reasons & Plans
- ✓ Uses Tools
- ✓ Retrieves Knowledge
- ✓ Takes Actions
- ✓ Collaborates

WHO IT'S FOR

Built for the People Building the Future.

Software Engineers

Ship intelligent systems at scale.

DevOps Engineers

Automate pipelines with AI agents.

Automation Engineers

Build autonomous workflows.

Technical Consultants

Lead AI transformation projects.

Startup Founders

Build AI into your product from day one.

Working Professionals

Future-proof your career with agentic AI skills.

Students

Launch your AI engineering career with real projects.

No prior AI experience required. Start from foundations, build to production.

YOUR LEARNING JOURNEY.

Three phases. Twelve modules. One destination: production-ready agentic AI systems.

01

Phase 1

LLM FOUNDATIONS

- Prompt Engineering
- LLM Architectures
- Function Calling

▸ API Integration

02

Phase 2

AGENT ENGINEERING

- RAG & Vector DBs
- Memory Systems
- LangChain & LangGraph

▸ CrewAI & AutoGen

03

Phase 3

PRODUCTION AI SYSTEMS

- FastAPI & Cloud AI
- Multi-Agent Systems
- Monitoring & Scaling

▸ Capstone Project

SKILLS YOU WILL MASTER

A complete agentic AI toolkit — from foundations to production deployment

Prompt Engineering

Function Calling

RAG Systems

Vector Databases

Memory Systems

AI Agents

LangChain

LangGraph

CrewAI

AutoGen

FastAPI

Cloud AI

BUILD REAL. SHIP REAL.

Seven industry-grade projects — each one portfolio-ready, each one solving a real problem.

01

Personal AI Assistant

LangChain · OpenAI · FastAPI · Beginner

02

Research Agent

RAG · Vector DB · Web Search · Intermediate

03

Enterprise Knowledge Assistant

Pinecone · LLM · API · Intermediate

04

Memory AI Companion

Memory Systems · LangGraph · Intermediate

05

Workflow Agent

AutoGen · CrewAI · Tools · Advanced

06

Multi-Agent Startup Team

Multi-Agent · Orchestration · Advanced

07

AI Operations Dashboard

Monitoring · Cloud · API · Advanced

Capstone: Production AI Platform

Full Stack · Deploy · Scale · Capstone

THE STACK. THE CAREERS.

Agentic AI engineers are among the most in-demand roles in tech

Tools You'll Work With

Python

LangChain

LangGraph

CrewAI

AutoGen

OpenAI

Ollama

Pinecone

ChromaDB

FastAPI

Docker

LangSmith

Career Paths You'll Unlock

Agentic AI Engineer

AI / LLM Engineer

Generative AI Engineer

AI Application Developer

AI Automation Engineer

AI Solutions Engineer

Salaries are rising fast — and the talent pool is still small.

WHY ZYVOTRIX

Learn AI by Building. Not by Watching.

Live Mentor-Led Training

Expert engineers, not recorded lectures.

Industry Projects

Seven real-world builds, portfolio-ready.

Community Support

A builder community that ships together.

Career Guidance

Resume reviews, interview prep, and placement support.

Ready to Build Real AI Systems?

Become a Zyvotrix Certified Agentic AI Engineer.
